PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**The English grammar is very poor**	The English grammar was reviewed
Minor REVISION comments	Check typographical errors and re-write units of measurements very well. For instance mg/L should read mg/l.	Typographical errors have been corrected
Optional/General comments	The English grammar in the manuscript is so poor that i find it very difficult to understand what the author (s) is trying to say. I have to re-do the whole write-up fr them virtually. And i think that is too much work. I have corrected majority up to the beginning of the results. Kindly review and do the rest.
