SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	This research aim at using colchicine (a poisonous alkaloid from autumn crocus plant, *Colchicum autumnale*) to induce beneficial mutation in sesame and false sesame so as to determine the concentration that could be beneficial in the genetic improvement of these two plants. The paper presents results consistent unpublished and with scientific relevance.	Already another reviewer suggested such and the correction made.
Minor REVISION comments	The work requires small corrections in formatting.	
Optional/General comments
