SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Journal of Applied Science & Technology
Manuscript Number:	2013_BJAST_4666
Title of the Manuscript:	**Seasonal variation in heavy metal content of tongue sole, *Cynoglossus brownii* and croaker, *Pseudotolithus typus* from Lagos and Delta states, Nigeria**

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Still required revision of the manuscript. **However should be accepted after minor revision.** **Some minor changes/corrections are made in the file "2 Revised_paper_4666", Please follow the comments/suggestions.** **Authors' Contributions** is not provided. In the text, citations should be indicated by the reference number in brackets [1]. See: "General Guideline for Authors" http://www.sciencedomain.org/page.php?id=general-guideline-for-authors Provide the **Aim of Study** at the end of Introduction section Describe the results and discussion parts separate. Discussion is not logically derived from the data presented. Discussion needs to be made threadbare. Although it is very important, but seasonal variation (Table 3,4 and 5) is not discussed. According to the Journal's format, references must be numbered in the order that they appear in the text. Take help from: "General Guideline for Authors" http://www.sciencedomain.org/page.php?id=general-guideline-for-authors **Delete the References, if not cited in the text:** Skejelkvale, BL., Andersen, T., Fjeld, E. Mannio, J., Wilander, A., Johanson et. al. Environmental Pollution, 1999; 100(1-3), 179-196 United States Environmental Protection Agency, USEPA.
