SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments		
Minor REVISION comments	What FAO stands for in Table 1?	
Optional/General comments	It is usually well known that wastewater could be a good source for vegetation although whether people can accept the harvest or not is a different matter. This paper described advantage of using wastewater for vegetation with statistical data. It was very interesting.
