	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	Any	
Minor REVISION comments	In Keywords the authors can add Zea mays, transplant and plant density	
Optional/General comments	I reviewed this work with a lot of attention, and I found that the authors have made an interesting work in the field of corn. This work was done with care and the methodology for the realization of this work was very well chosen which allowed the authors to arrive at interesting results and provide relevant conclusions which could be taken into consideration in agriculture. Thank you to the authors.
