SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	The article highlights an important issue for current and one of the major cultures of the world. However, I think the article is a local approach or (slightly) National (Ethiopia) and failure to amplify this matter (Nutritional Requirement) globally. This does not take away the merit of the work that must be titled: Nutritional Requirement and Management of Arabica coffee (Coffea arabica L.) in Ethiopia. Some practices have already been studied and applied in other countries.	
Minor REVISION comments	Minor comments are inserted in the PDF file.	
Optional/General comments
