PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments		
Minor REVISION comments	The idea of developing commercial food having more impact on growth performance is good. As there is no graphical representation of the results, it is recommended that the results interpretation in graphs will be more eye-catching. Table -3 should be represented by graphs, may be separated graphs for each nutrient will show comparative difference among treatments.	
Optional/General comments
