SDI Review Form 1.6

PART 1:

Journal Name:	British Journal of Applied Science & Technology
Manuscript Number:	**MS: 2013_BJAST_3259**
Title of the Manuscript:	**TOXICITY AND HISTOPATHOLOGICAL EFFECT OF CYPERMETHRIN ON JUVENILES OF *CLARIAS GARIEPINUS***

General guideline for Peer Review process is available in this link:
(http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline)

- This form has total 9 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment The "**TOXICITY AND HISTOPATHOLOGICAL EFFECT OF CYPERMETHRIN ON JUVENILES OF *CLARIAS GARIEPINUS***" titled article was determined to present original data, partly. Major corrections that need to be made are listed below.	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	Introduction: This part should be written in more detail. The objective of the study and the justification for the originality of the study should be explained more clearly. Conclusion and Discussion: This part should be rewritten in more detail. The results of the study should be explicated in light of the available information and taking into consideration the causal link. The conclusion should be rewritten to also highlight the contributions of the study results to science. As regards statistical calculations, it should be revised and explained how the one-way analysis of variance, References: The correctness of indexes to literature and references in the text should be checked. References should be increased with the other experimental study which is done in the other experimental animal.	I have completely re-write the introduction. The corrections have been effected. We have put the paper in the SDI template sent.
Minor REVISION comments		

Optional/General comments
