SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**1. The article must be thoroughly reviewed by an English language reviewer.** **2. The article has to be summarized because it is now too lengthy. I suggest summarizing the introduction part.** **3. The authors have to defend their choice of the PNN network. For example, there exist other candidates like: MLP, RBF, and LVQ neural classifiers.**	
Minor REVISION comments	1. Jordanian & Palestinian dialects are so similar. So I would recommend trying another completely different Arabic dialect like the Moroccan one for example.	
Optional/General comments
