SDI Review Form 1.6

Journal Name:	**British Journal of Mathematics & Computer Science**
Manuscript Number:	**2014_BJMCS_12749**
Title of the Manuscript:	**ON A WEIGHTED RETRO BANACH FRAMES FOR DISCRETE SIGNAL SPACES**
Type of the Article	**Original Research Article**

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	The author has obtained nice results of a weighted retro Banach frame for a discrete signal space and studied the necessary and sufficient conditions for the existence of above frames. Some results related to Paley-Wiener type perturbation for these frames in Banach space also given. The introductory part covers all the prerequisite of this paper. The language is also good. Therefore, I strongly recommend this paper for publication in your Journal.
