PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments		
Minor REVISION comments	Good work. Grammatical error: Lines 94 A series of analyses were ……	Thank you for pointing it out. We fixed it.
Optional/General comments	Good work. However, as they noted in their limitations, the law of demand and supply was not obeyed. They used demand (discharged volume) in their calculations but left supply (man power and materials available for care) as constant which is not realistic. It is improvement on what is available now. Future study that will include the ratio of supply to demand will give better assessment of service delivery and the best guide in establishing more trauma centres.	Thanks for your comments. We agree there is room for improvement once data becomes available.
