PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**This paper is very good technical report about using nano-suspensions is solar heat exchange devices. The paper can be accepted however the authors have to name the symbols in all equations they listed in this paper. The reader does not have to guess what these symbols are. The authors must define these symbols in each equation, without that the paper will be hard to follow.**	
Minor REVISION comments		
Optional/General comments
