SDI Review Form 1.6

**PART 1: Review Comments**

| | **Reviewer's comment** | **Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)* |
|---|---|---|
| **Compulsory** REVISION comments | **No** | |
| **Minor** REVISION comments | No | |
| **Optional/General** comments | This is a well written paper to shows the demand of optimal debt to a debtor is based on its expectation of credit, requested in terms of interest rate and repayment periods, offered by the creditor under a company increases capital 's financial condition . It proposes a model to derive the optimal rent and the number of rents for rental investment operation by a company.<br><br>The model is appropriate and the derivations of equations are logically and rigidly correct. The overall written structure is fine with proper literature review. It is a good paper, if it can add some implications for this model and result will make this paper even better. | The purpose of this paper is to provide decision criteria in corporate finance. |
