SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**The abstract should be rewritten and the main goal of the work clearly defined.** **There are mistakes concerning bacteria classification that should be corrected. The study group should be clearly defined in the material and methods section. For example the number of individuals per group should be written.**	The author appreciates the reviewers contribution and have effected the corrections concerning bacterial classification and study grouping.
Minor REVISION comments		
Optional/General comments	The study is very interesting. The authors should consider re-written and reorganize the manuscript in order to strength it.
