SDI Review Form 1.6

PART 1:

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	**2013_IJBcRR_4464**
Title of the Manuscript:	**Glutathione S-Transferase enzyme (GSTT1 and GSTM1) Gene Polymorphisms in End Stage Renal Disease among Egyptian Population**
Type of the Article	**Research paper**

General guideline for Peer Review process is available in this link:
(http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline)

- This form has total 7 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments		
Minor REVISION comments	1. The methodology for the analysis of the deletion polymorphism of *GSTT1* and *GSTM1* is well established, the figure 1 is not necessary. 2. The nomenclature of *GSTT1* and *GSTM1* must be in italics. 3. The average age is not a clinical characteristic, so this information should not be in Table 1. Remove this information of the table and transfer this information to the text. 4. There is an error in Figure 2. Where is GSTMM1 change for *GSTM1*. 5. The Figures 2, 3 and 4 are not necessary, such information could be in the text 6. The Table 4 presents confusing because there are many information. It could be formatted differently and more clearly explained.	1. Figure (1) to illustrate the PCR application on these ESRD cases for both genes. 2. Done. 3. Done. 4 and 5 comments: Figure 2, 3 and 4 were removed. 6. Table 4 was reformatted, done.

Optional/General comments	Publish with Minor REVISION. Although there appears to have ethical problems, was not referred to in paper approval of the Ethics Committee. Therefore, include this information.	 This information was added in 2.1. Subject section at the end of paragraph 1.
