SDI Review Form 1.6

Journal Name:	**British Journal of Mathematics & Computer Science**
Manuscript Number:	**2013_BJMCS_6371**
Title of the Manuscript:	**On the Existence and Nonexistence of Positive Solutions for Singular Quasilinear Elliptic Equations with Gradient Terms**
Type of the Article	**Research Paper**

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.
To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	In this paper, using supersolution and subsolution methods, the authors study the existence and nonexistence of positive solutions to singular quasilinear elliptic equations with gradient terms . This subject is interesting, the results of the paper are new and nontrivial and the proofs seem to be correct. I believe the paper is of interest to the readers. From my point of view, the work is well-done and merits to be published but only after a careful revision. Please improve English in your manuscript and seek the advice of someone with a good knowledge of English, preferable native speaker.
