SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	The authors aimed at investigating the major cause of morbidity, hospitalisation and mortality among chronic non-communicable diseases in The Gambia. It is an interesting and important study to draw the attention of public health politics makers. It also seeks to raise the awareness of the problem since the cardiovascular disease and hypertension are the main causes of morbidity and mortality in developing countries.	Ok.
