SDI Review Form 1.6

Journal Name:	**International Journal of Biochemistry Research & Review**
Manuscript Number:	**2014_IJBcRR_14439**
Title of the Manuscript:	**Optimization of Starch and Tryptone Concentrations in Medium Composition for Lipase Production by Submerged Fermentation of Rhizopus arrhizus Using Response Surface Methodology**
Type of the Article	**Original Research Article**

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.
To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments		
Minor REVISION comments	There is a typo in line 34 yeast extract. In 2.4 lipase assay I recommend to include the extinction coefficient for nitrophenol at the assay conditions (tris HCl pH 9, at 405 nm) In the figures 4 and 5 is supposed that there is a parameter that is maintained constant in the plot while the other is variable, the author should include the constant value Other than that congratulate the authors for their good work, and encourage them to keep working	
Optional/General comments
