SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	Original article relevant for the use of plants in traditional medicine as an alternative for treatment of infectious diseases caused by opportunistic fungi of the genus Candida.	
Minor REVISION comments	I recommend putting the scientific names of plants in italics on line 18, 22 and 24. Separate units of measurement used to determine the concentration mg / ml of the number, eg line 19, 64, and so on. Determine if the manuscript is indented or not carry as on line 27, 47, 156. Recommend the use in materials and methods if the positive control is nystatin concentration used. Explain that was used as negative control for each solvent used for extraction of the plant to determine whether it affects the results or not.	
Optional/General comments
