

SDI Review Form 1.6

Journal Name:	American Chemical Science Journal
Manuscript Number:	2015_ACSj_17117
Title of the Manuscript:	Kinetics and entropy production of force-induced oligomeric enzyme catalysis in a single trajectory: effect of multiple substrates
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	Ethical issues-: If there are any ethical issue please clarify.	Not applicable.
<u>Minor</u> REVISION comments	The author needs to change the introduction because is not appropriate with the tittle Change 20 references: more actualized	Introduction is changed to put more importance on the work for multi-substrate case. We have also reduced some figures(three) which were less relevant in this version in view of our of our earlier works. Please see all the three references of our earlier works. In this version we have revised the article thoroughly for more clarity. We have drastically reduced the number of references as the number of references given in earlier version were quite high.
<u>Optional/General</u> comments
