PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Dear Authors, I have read the paper and I think that it may be interesting in clinical practice, particularly in emergency. However it is necessary to well clarify in case why you think that patient has a Datura stramoniumun intoxication. Did you perform a blood evaluation? Other drugs are able to induce the same symptoms. Please clarify this point in case report and in discussion	We performed a blood evaluation. It's normal range (in text) Drug could not be determined in toxicological screening Further story exposed that patient had consumed "devils apple" for entertainment about 4 hours ago
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
