**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b><u>Compulsory</u></b> REVISION comments		
<b><u>Minor</u></b> REVISION comments	The literature part could be further enhanced.	Literature has been attended to..
<b><u>Optional/General</u></b> comments	The paper showed that environmental accounting practice is significant in benchmarking standard for corporate reporting and that compliance with Nigerian environmental protection laws has not had significant influence on environmental accounting practice by a hypotheses testing. Which is quite interesting and meaningful for the companies in Nigerian nowadays. It is proposed to be published with a little modification.	Thanks.
