SDI Review Form 1.6

PART 1: Review Comments

| | Reviewer's comment | Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i> |
|--|---|---|
| <u>Compulsory</u> REVISION comments | | |
| <u>Minor</u> REVISION comments | It would be desirable more carefully executed figures, especially for those ones that are made by means of MS Excel | Figures 3, 4 and 5 have been re-drawn and a mistake in the text of figure 6 rectified. |
| <u>Optional/General</u> comments | Manuscript widely and deeply describes a complex problem of cumulative effects of seeding of clouds by silver iodide. The directions of future experiments for the solution of this problem are designated. Relevance of a task is confirmed by importance of water availability in a world with rapidly increasing population. | |
