

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Advances in Research
Manuscript Number:	2014_AIR_9161
Title of the Manuscript:	Environmentally Favourable and Unfavorable Bacteria

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<ul style="list-style-type: none"> - Pattern of referencing should be re-check as in most manuscript; the authors cited just the first author for the group instead of name of the first author plus et al, while the reference number 60 is correct. - Citation problem, lines 303 and 304 "the authors also showed " as well lines 312 and 314 " the authors pointed out " , but they should cited if it published work or mentioned "in unpublished work the authors " , same problem exit in figures number 2 & 3. 	<ul style="list-style-type: none"> - Pattern of referencing: All references were corrected as required - Citation problem, lines 303 to 304 and 312 to 314: The sentences were modified to "Additionally, EuniSL was able to agglutinate <i>S. aureus</i>, <i>Streptococcus</i> spp, <i>Klebsiella</i> spp and <i>P. aeruginosa</i>." and "<i>M. urundeuva</i> heartwood is very resistant to the deteriorative biological agents and, according to Sá et al. [52], the antibacterial activity of MuHL may be involved in this resistance.", respectively. - Citation Problem in figures 2 and 3. The words "Source: authors" were deleted since the figures were showed for the first time in the present work.
