**SDI Review Form 1.6**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	It would be desirable more carefully executed figures, especially for those ones that are made by means of MS Excel	
<b>Optional/General</b> comments	Manuscript widely and deeply describes a complex problem of cumulative effects of seeding of clouds by silver iodide. The directions of future experiments for the solution of this problem are designated. Relevance of a task is confirmed by importance of water availability in a world with rapidly increasing population.
