

SDI Review Form 1.6

Journal Name:	Advances in Research
Manuscript Number:	2014_AIR_11388
Title of the Manuscript:	Crack-growth on canvas paintings during transport simulation monitored with digital holographic speckle interferometry
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	N/A	
<u>Minor</u> REVISION comments	N/A	
<u>Optional/General</u> comments	The authors present a method to measure crack-growth on canvas paintings during transport (simulated) employing digital holographic speckle interferometry. The manuscript is clearly written and lack of any obvious error. I think this work will expand the applicability of digital holography. I support the publication of the manuscript as it is.
