

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Advances in Research
Manuscript Number:	2014_AIR_11157
Title of the Manuscript:	The Relationship between National Income and Occupational Injury

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>Line 23-26: starting 'we wished.....noexistent data. X need to mention here - delete.</p> <p>Line 27-28: from...in order toParagraph: delete.</p> <p>Line 29: ..In mind..Delete.</p> <p>Line 31: Start new para fromIn order....</p> <p>Line 36-37: replace...even.....disparity with Despite of these assumptions, occup accidents occurs in all nations.</p> <p>Line 38-39: ...plant accident in 2011, in Japan has killed....</p> <p>Line 39: replace..About the..With - on these...</p> <p>Line 101: replace with...These literatures examine major....</p> <p>Line 102-3: delete</p> <p>Line 107: They revealed that....</p> <p>Line 113-14: delete other.....nations.</p> <p>Line 116: replace... and about... with ...compared to.</p> <p>Line 119: 3. Methodology</p> <p>Line 121- 124: better to write hypothesis in form of list - H1, H2.....so that its easy to relates with regression analysis in</p> <p>Line 215-217.</p> <p>148 - graph 1: my opinion - graph still lack of association esp btw fatal acidt with high @ low conseq...eg if gdp high → fatal reduce/low...etc - G1 do not show this; of course they wl b explain later via regression; but here v are referring to graph presentation.</p> <p>171 - 176: replace with...'G3 demonstrates the growth of 4 selected developed economies. It should be noted that the USA having a much greater working pop compared to other developed nations'.</p> <p>175: replace Cases...with ...Incidence of FOI for both economies are shown in G4 & 5.</p> <p>177 & 184: G4 & G5 - delete cases of. But only use.... FOI in emerging/developed market.</p> <p>180-84: replace with - G4 presented the incidence of an increase for India, but a steady trend for Mexico & Thailand.</p> <p>187-188: replace with ... G5 shows a steady trend of FOI in 4 developed econ (note: data for Y1&2 in USA missing/cld not be obtained)</p> <p>190-192: replace... The rate of FOI in emerging market have higher rates, ranging frmcompared to developed economies of only 0.6 - 4.0% (refer G6 & 7)</p> <p>196-7: replace... The trend for India is significantly higher, compared to R,M & T.</p> <p>201-203: G7% label on vertical axis....double entry??</p> <p>208-213: replace....The hypothesis of this study.....thru a linear rgr model. The results are evaluated based on F.... test, by utilising spss software.</p> <p>215: delete In this.... replace withThe following</p> <p>217: delete Rate of...use only FOIn =</p> <p>219-225: FOIn - the rate of....; GDPn - national.....; Cases FOIn - the number of....;</p> <p>227: T1 illustrates the research V</p> <p>231-248 & 254-272: my opinion.....should starts with T2..The coeff, followed with T3 - anova & T4 Summary of model @ better if T3 & T4 could b combined.</p> <p>The study has only 1 model...so x need to label model 1; the notes under each table do not present/x according to international settings, normally the notes rfr to sources & signif level of test: eg: a - signif @ 5% @ 10% level...</p> <p>249-252, 274-277 & 293-300: its risky @ x appropriate to just conclude direct @ indirect association...may be positive @ inverse relationship much acceptable...However, higher GDP & the status of developed C's may provides greater opportunities to invest in....& do the enforcement....</p> <p>322-336: need better phrases of conclusion to show the depth of positive/significant vs inverse/insig r/ship btw factors in this study.</p>
