

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Advances in Research
Manuscript Number:	2014_AIR_10443
Title of the Manuscript:	Validation of decision cut off values of serum albumin and prothrombin time for differentiating between compensated and decompensated liver cirrhosis.

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>I previously gave you my comments and no more than that: I rejected this paper as the aim and the idea not contributing in adding any new data to the child-pugh classification for prognosis in liver cirrhosis as it classify patients into early cirrhosis Class A when serum Albiumin more than 3 gm/dl and serum bilirubin less than 2 mg/dl. So, I can't evaluate the manuscript with lacking good object. = rejection</p>
