

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Advances in Research
Manuscript Number:	2014_AIR_10167
Title of the Manuscript:	Delirium due to Datura Stramonium Ingestion: A case report

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>Author reported the 19 years old patient who showed the toxicity of harbal plant. This article improved much. Therefore, I considered that this article is worth accepting. However, I want Author to correct three points.</p> <p>L93: cholinergic system, which is due to the toxicity of anticholinergic agents.</p> <p>Peripheral →cholinergic system in such case, which causes anticholinergic toxicity.</p> <p>Peripheral</p> <p>L98 : Hori K, et al reported that the injection of physostigmine might stop the anticholinergic →Hori K, et al reported that the prescription of cholinesterase inhibitor might stop the anticholinergic</p>
