SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. The title means to focus on cyanide in cassava which should be concentrated in the text. Other too general information about cassava products may be omitted. Otherwise the title should be modified. 2. The authors should re-do Figures 1, 2 and 3 to make these figures more up-to-date. The figures are all from the same reference in 1988. These will not make the review interesting as it should be. 3. Some errors (underlines in the file) need to be corrected. Also there are several single sentences present in one paragraph. The authors should revised them. 4. There are many places in the review that the style of writing having an author followed by the text from such reference. These can be edited to make the review better. 5. Recently published or information should be added eg. in lines 219 to 224 the reference is too old. There are now many new products from cassava in Thailand, and the animal feed is becoming less important. 	<ol style="list-style-type: none"> 1. Ok. The title has been modified. New title is "WASTE-TO-WEALTH APPLICATIONS OF CASSAVA- A REVIEW STUDY OF INDUSTRIAL AND AGRICULTURAL APPLICATIONS" 2. The Figures have been edited. 3. Such instances of error have been corrected. 4. Ok. 5. Review study appropriately includes old and new studies alike. However, more recent studies have been added.
Minor REVISION comments	<ol style="list-style-type: none"> 1. Some good pictures about cassava and its products can be added to the review. 	Some product pictures have been added as appendix. We are careful not to make the review file too bulky for handling, editing and transmission.
