PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <u>Compulsory</u> REVISION comments | The article is very difficult to perceive, is not very clear what for is written this article. The author should clearly state the purpose of writing of article | We stated more precisely the goal of the study in the abstract. |
| <u>Minor</u> REVISION comments | The author should bring an article to conventional thinking, for example, highlight the section "Discussion", the section about the paradigm divided into "Introduction" and "Theory", etc. | We split the paradigm section into two parts |
| <u>Optional/General</u> comments | List of links, even taking into account the nature of the review article, is too large, it is necessary to reduce | Deleted : - Barrere Maurisson MA.
