

**Editorial Comments:**

There are two issues left.

- 1) The manuscript should be reread by a native English speaker.
- 2) The section 'Conclusions' does not conclude, but basically summarizes results again. The section 'Future Scope' should be deleted and become a part of the 'Conclusions' section. Ideally, the authors add 1-2 sentences to the conclusions that explain on where and how the obtained results can be used.

**Author's Feedback:**

We modified the conclusion as desired by the worthy Editor.
