

SDI Review Form 1.6

Journal Name:	Advances in Research
Manuscript Number:	Ms_AIR_19816
Title of the Manuscript:	Advances in Modern Physics: Transition from Positivism to Post-positivism in Education and Research
Type of the Article	Opinion Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Comments on OPINION ARTICLE The paper comments on the parallel between the transition from classical mechanics to quantum mechanics, on the one hand, and from positivism to post-positivism on the other hand. This is not quite new. For instance I like to say that a human people has a body on the one hand and a wave function on the other hand. This is well known in all religions	Thanks for the comment. There are readers who are unaware of and would be interested in these relations, and this study is unique in terms of finding out the close relations between quantum and post-positivist philosophies as also stated by other referees.
Minor REVISION comments		
Optional/General comments
