SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>The authors must address the following points:</p> <ul style="list-style-type: none"> • Introduction section is too weak. The author should rewrite and analyze the paper referring to other papers that have been published on recent years (2012-2014); need more recent references. • Fig. 1 is not clear. Dimensions cannot be read. • The authors compare the two lathe machines but the specifications of the machines are not in the paper. • Scenarios are not comparing with each other. If there is any ethical issue then please clarify. 	
<u>Minor</u> REVISION comments	The authors do not announce systematically and clearly the results of the study.	
<u>Optional/General</u> comments	The results and analysis are poorly. The conclusion does not have any scientific interest.
