

**SDI Review Form 1.6**

Journal Name:	<a href="#">Advances in Research</a>
Manuscript Number:	<b>Ms_AIR_19816</b>
Title of the Manuscript:	<b>Advances in Modern Physics: Transition from Positivism to Post-positivism in Education and Research</b>
Type of the Article	<b>Opinion Article</b>

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

**SDI Review Form 1.6**

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<p>The paper not have any quantitative analysis that supports this opinion.</p> <p>The paper only shows some aspects of Modern Physics, but not includes the statistical mechanics as experimental methodology in modern physics, since the observations in this acknowledge have enriched of conjectures and propositions the modern physics.</p> <p>There are some controversies in the experimental part with theoretical. The author must analyse these. And these could to solve it with adequate philosophy.</p> <p>Since the quantum mechanics, for example, is an incomplete science. The QED, is the second quantum mechanics (created by Feynman). Then what follows? The philosophy of the science is very poor, the authors must to give more argumentation.</p>	
<b><u>Minor</u></b> REVISION comments		
<b><u>Optional/General</u></b> comments	<p>YOU MUST TO IMAGE THE IMPORTANCE OF THE QUATUM MECHANICS. THE POS-POSITIVISM NOT HAVE HELPED IN NOTHING. BUT THE NANOTECHNOLOGY YES.WHEN YOU INCLUDE THE SPINTRONICS?</p>	

**Reviewer Details:**
