

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Advances in Research
Manuscript Number:	2014_AIR_12059
Title of the Manuscript:	DETERMINATION OF THE NUTRITIVE VALUES OF Pelophylax esculentus (EDIBLE FROG) FOUND IN HANYAN GWARI, MINNA NIGER STATE, NIGERIA
Type of the Article	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>The authors have done obvious revision, but some grammar and spelling mistakes are existed. Therefore, the authors should revised it more carefully. Especially the conclusions. The authors concluded that “it shows that the meat of <i>Pelophylax esculentus</i> have higher nutrient composition and calorie value .It also indicate high content of mineral elements composition given the Na/K ratio is above”, etc. There was no actual comparison, so it’s not right to conclude like those.</p>
