FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
1. My original comment no. 5: Page 2, para 4, last sentence (Rogers, (1995).... Innovations.) : The author should consider reframing the sentence, as it seems to be without much meaning.: The reframed sentence is still INCORRECT. 2. My original comment no. 6: Page 4: The author should give objectives under separate heading/sub-heading. This is the standard practices for journals.: Objective no.1: after the word study area, the author should use coma (,) mark. 3. Revised paper: page 11: 3rd Para under CONCLUSION: 1st sentence: The author should remove coma mark after the word was that. 4.
