SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	When citing a source, use last name and year in text, not just number.	I used numbers alone following the instruction in the authors guide as regards this. It is also numbers only in the journal template.
<u>Minor</u> REVISION comments	Line 78: after “though two effects could achieve”, add “a decline in absolute poverty”. Line 100: use comma format for all numbers over a thousand, e.g. 9,377. Line 111: do not capitalize Agriculture. Line 269: write out SAP. Line 318: change to “also shown pictorially”. Line 375: add space in “1unit”. Line 383: in the poverty situation in Nigeria....	Addition of “a decline in absolute poverty” will alter the meaning of that statement. I have however added i.e to make the meaning clearer. This has been addressed. This has also been corrected It is now “ Structural Adjustment Programme”. It has been addressed. Done I did not add this because it is not relevant to the place.
<u>Optional/General</u> comments	Line 182 and elsewhere: indent first line of each paragraph (except first paragraph in each section).	This has also been done.
