| <b><u>Optional/General</u></b> comments    | <p>In page 14, (line 1 , 2) and recommendation concentrate on fiscal policy to courage investing as way to avoid inflation in order to growth economic. In my opinion this can done by courage petroleum sector (as in page 1) and make return to courage agriculture sector by cover needs as before 1970 then courage investing in agriculture industry to build industry sector. The question is there experts of industry buildings?</p> | <p>We acknowledge this particular reviewer for his ample unit of time he spared to go through this paper and came up with unique recommendations.</p> <p>Fiscal policy is an instrument used to regulate economy, which is facing inflation or deflation or etc.</p> |
