SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Must be clarified the year of the survey. Please, add some statistical data of tomato (ha). Also try to add some data on fertilizer and pesticide usage on arable land at the same time! Chapter Conclusion is too short (discussion is missing!) – must be extended. You must reflect to the literature.	
<u>Minor</u> REVISION comments	Extend material and methods: why was chosen Cobbs-Douglas function?	
<u>Optional/General</u> comments	What the Reviewer is missing: the aspect of the production structure, so in the future researches you should deal with that question. The paper is well written, is a scientific one.
