SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Abstract should be re-written. For example Line 6 of the abstract should be written in simple and clear terms. Agriculture used to be the 'mainstay'.....	
<u>Minor</u> REVISION comments	Line 39: A space between naira and 160 Line 72: Implementation should start with capital letter I and his changed to this Line 146: Federal Institute of Industrial Research Oshodi is FIIRO and not FFRO. Line 189: ambitions should be ambitious	
<u>Optional/General</u> comments	Although the paper is well written in terms of grammar and structure, I think the authors need to do more research with regard to the successes and challenges recorded. The paper just presented few of the success and challenges and may not be sufficient enough for publication. Papers published on the use of cassava in bread should be cited and referenced. Consumers perception or acceptability studies on the new products in the last decade should also be addressed.
