FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The manuscripts is now taking shape and in good mode for publication. Please find attached my small corrections. It will be advisable to use some of the common names of the species used in the AFS. e.g. Illicium verum is Star anise or Star aniseed as a common name. Use those in place of Illicum verum. Again China berry or bead tree can be used for Melia azedarach and so on and so forth.... Symbols for degrees can be found in words as follows: In Word, go to insert, then symbols. Pick the degree symbol from there and insert at their rightful places in the manuscripts. Do not use a lower case of the letter O or numerical value zero (0) and superscript it to look like degrees symbol. Please note I am attaching both pdf and word copies of the corrections.
