PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
I am satisfied and accept the responses the author gives to my comments. There are only 2 small points that still need corrections, i.e.: 1. In table 1, variant "Secondary school" within variable "Educational Background" should have value: 59.56, and not 55.56. 2. The recommendation no 7 from list of Minor REVISION comments was not done, although author/s declare it was corrected. If this is done I will accept the manuscript to be published in Asian Journal of Agricultural Extension, Economics & Sociology.
