- This form has total 9 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	Minor revision needed in the highlighted areas.	It is well noted and corrections effected
<u>Optional/General</u> comments	The paper is generally good but for few grammatical mistakes and the fact that decision to access credit and credit access seem to be used interchangeably (but I think they are not the same).	In this study, we defined access to credit as a situation whereby poultry farmers or respondents have full access to authentic or reliable credit information; while demand for credit is considered as the amount of credit measured in Naira (₦) that a farmer actually borrowed from any lending source. Note, the study considered informal, semi-formal and formal credit sources.
