- This form has total 7 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	After evaluating the manuscript I believe that it is very well written bringing the informations needed for the proposed objective. I believe that only a few minor corrections should be made.	
<u>Optional/General</u> comments	NOTE: As the study was the involvement of farmers, I think it would be necessary the approval of an ethics committee, since the farmers were submitted to questioning. This is a practice that needs the approval of ethics committee. I believe the citation of the number of protocol approval is an essential information of this work publication.
