

SDI Review Form 1.6

PART 1:

Journal Name:	American Journal of Experimental Agriculture
Manuscript Number:	MS: 2012_AJEA_2980
Title of the Manuscript:	GROWTH RESPONSE OF BROILER STARTER ON TIGERNUT (<i>Cyperus esculentus</i> L) MEAL BASED DIETS

General guideline for Peer Review process is available in this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

- This form has total 9 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	I reviewed this paper and I think that it results scientifically relevant, because to date there are not similar published works. The theme of the paper is within the scope of the journal and the experiment was well conducted with clear and simple description of the material and methods utilized. The English should be revised and improved to make the paper suitable for an international journal. Particularly, I understand that English is not the mother tongue of the Authors, but I suggest to recheck the manuscript in terms of language, because it is poor during the whole manuscript. Some issues merit more attention, modification and/or removal. However, after appropriate revision the paper could be accepted for publication.	
<u>Minor</u> REVISION comments	Title – change to “GROWTH RESPONSES OF STARTER BROILER FED TIGERNUT (<i>Cyperus esculentus</i> L) MEAL BASED DIETS”; Abstract – Revise the English and add a final sentence to stress the findings of the trial;	Title has been changed as suggested. Also, the abstract has been revised.

SDI Review Form 1.6

	Introduction - Revise the English; Table 2- PKC??? Table 3 – Delete the line containing NFE values; Results – sub-headings can be merged; Discussion - This section needs to be revised and clarified; References - Revise the all reference notes according journal's style; and pay attention to the exact journals names. Figures – I think that all figures can be deleted, since data are already reported in Tables.	
<u>Optional/General</u> comments		I have deleted all the figures BUT couldn't see any error in the English and references.
