Subject: Re: Request for final decision for manuscript number 2013_AJEA_3899

The authors have revised and improved their manuscript according to the comments given by reviewers. However, there are some typographical errors which should be checked by English expert.

I indicate some errors below:

For nickel, copper, iron, lead and zinc, abbreviate them as Ni, Cu, Fe, Pb and Zn as you already defined at the beginning of the manuscript. Follow this throughout the manuscript.

Line#326: Fig 6 shows a graph..... Please rewrite as Fig. 6 depicted the..... Because Fig. itself a graph here.

There are some errors in references. E.g. In Line#368: Write Biotechnology instead of Biotechnol. Be consistent about reference formatting. Use either abbreviated or full form of journals. Do use the both.

Line #395: Italicize *Helianthus annuus*

Line#456: Italicize *Dasineura dielsi*

Important:: Fig. 3 and 4 should be rechecked. I am wondering to see too high standard error bar !

After those minor correction and proofreading the manuscript may be accepted for publication.
