- This form has total 9 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	This is an interesting manuscript which is well written. However a weakly point is the Results and Discussion section because there are not references. The authors must to discuss your outcomes i.e. the discussion consist of offering an adequate interpretation, as well as comparing the most relevant outcomes with those of other authors that have worked on a similar theme. Additional comments: In the References section the instruction for authors were not attended. Page 3, line 119. Who is Israel? Or "...suggested by Israel (1992). Based on..." Page 4, line 176: add (1984) i.e. "Housman and Mcfaddeb (1984) noted that..." Page 4, line 186. What means "(11)"? Table 3. What means LR χ^2 (66)? I.e. what means 66??	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
