SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	Author(s) expressed that isolipid and isonitrogenous, isoenenergetic diets were formulated in varies oilseeds meal proteins enriched with DL-Methionine (0.5%) replaced fish meal (FM) protein at 50%. The study was conducted based on Table 3 (Biochemical composition 173 of diets fed to Nile tilapia). So, the Table 3 as well as 3.1 sub-section, chemical composition and diets are not in the results, should be given in Materials and Methods. Also, Fish meal proteins contain should be in Diet Formulation. Price of ingredients in Ghana or international index? Because, Tilapia sale price given in Ghana. Study for the validity of the international should be price of fish and aqua feed as well as taking part in the same category (in Ghana or world). In references, 23th be make justify align.	I have moved Table 3 and sub-section 3.1 to the Materials and Methods. Fish meal protein has been stated. The prices of ingredients and Tilapia are actually stated in US Dollars. This was not well presented in the work so I will do that. I have justified all the references.
<u>Optional/General</u> comments
