PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	The title is too lengthy and encompassing. I suggest it should be split into two to read for instance: 1. Effects of soybean oil..... on performance and carcass characteristics on broiler chickens. 2. Effects of on organ weights, hematology and serum cholesterol content of broiler chickens. Then re-touch to make them more scientifically and grammatically sound.	The title is 22 words long and is within the word length for journal. Indices indicated in the title were all addressed appropriately in the text. The authors are of the opinion that the title is okay as it is now. Done
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
